**AUTHOR:** [Swift Soul](#) on top the Delta clock tower

We, the people of the [Delta](#) shall declare our own state, The Republic of the Delta dedicated to peace, prosperity, and equality whether founding member, immigrant, or travelers staying for the night. We shall uphold our ideals for as long as the event goes.

To uphold our ideals, it is required to have a strong leadership. Thus the government of the Democratic Consulate of 3. A system of A Foreign Minister, A Resource Minister, and a Defense Minister. Weak while singular, strong together. Strong in cooperation.

## THE ROLES OF THE LEADERS

The foreign minister's main goal is to represent the delta, to foreign nations of the world to uphold the ideals of the people; and accomplish peace within not only the delta but the world through trade and cooperation.

The resource minister's main goal is to manage the resources of the nation whether ore, armor, weapons, and etc and uphold the Delta's ideals of equality to make sure everyone retain their right to receive gear.

The resource minister shall also be assisted by a 'safe' a-

trusted person who shall retain the nations most valuable items and secure it from any bad actors who try to steal it. The 'safe' shall be picked by the current resource minister to be their righthand man/lady.

The defense minister's main goal is to protect the peoples of the delta indiscriminately regardless of their role in society. To accomplish this, the defense minister shall also manage the logistics of all guards in delta whether civilian protection or foreign conflicts.

## RIGHTS OF THE PEOPLE

every citizen of the Delta shall retain the rights of owning a set of at least copper, food, the right of free speech, and the right of a free vote to whatever the consulate deems needed. The Deltan ideals shall not only be held up by leaders but the people too.
